Official title of the degree: MBA - Global business administration

Degree: MBA, A Level +5, University Diploma of the UCO

100%
in English

OBJECTIVES AND TARGET SKILLS

Accelerate your global career with our MBA in Global Business Administration, taught in English. This program is ideal for economics and management students seeking to enhance their management skills through a business project centered on international trade or any other international management field. It also provides an opportunity for non-management or economics students to gain a comprehensive understanding of business management. Whether you come from political science, foreign languages, or information communication background, the MBA will elevate your professional English proficiency and management knowledge to new heights.

Our MBA empowers students to:

– Advance your management expertise with our MBA program and position yourself for success in a variety of roles, including export project management, commercial management, entrepreneurship, consulting, and business management - both in France and on the global stage. You will deepen your understanding of the business world, with a focus on commerce, marketing, supply chain, finance, project management, and business management, giving you the ability to navigate complex business challenges with ease.

JOBS AND SECTORS

- International business: international project manager, entrepreneur, business owner, global business developer, corporate social responsibility manager, social impact consultant
- International marketing: assistant marketing director, cause marketing manager
- International finance: financial analyst, accountant executive, budget analyst
